

Biophase Night Peel

with PHA + LHA

Kry
AESTHETICS

A new-generation night peel designed to deliver powerful skin renewal with minimal irritation.

BI-PHASIC

Exfoliating Treatment

This BI-PHASE system combines exfoliating acids, PHA / LHA with calming hydrators in a dual-chamber bottle, delivering freshly activated, balanced treatment with every use, gentle yet clinically effective.

What Makes It Unique?

PHA (Polyhydroxy Acid)

Gentle exfoliant for sensitive or dry skin.

- Non-irritating exfoliation
- Improves texture, tone, and fine lines
- Enhances hydration and barrier function
- Safe for delicate areas (underarms, inner thighs)
- Suitable for rosacea-prone and dehydrated skin

PHA (Lipo-Hydroxy Acid)

Slow-release salicylic acid derivative for targeted exfoliation.

- Lipophilic: Penetrates congested, oily skin
- Clears blemishes and reduces acne
- Refines texture and minimizes pores
- Gentle on barrier integrity

While-You-Sleep Glow

- ✓ Smoothly lifts dead skin without peeling or stinging
- ✓ Refines texture and enhances radiance
- ✓ Boosts absorption of actives
- ✓ Clears pores and prevents breakouts
- ✓ Brightens post-acne marks and uneven tone
- ✓ Safe for rosacea-prone and sensitive skin
