WHAT ARE DIFFERENCES BETWEEN HYDROJELLY® AND JELLYMASK® ?

Hydrojelly® masks are infused with electrolytes to boost skin hydration (just drinking water is not enough). The masks form a vacuum-like seal that compresses facial contours. These masks are formulated with refined algae, electrolytes and organic active ingredients to provide a unique silky texture and function as the mask blankets the skin. This intensive facial compression allows for complete absorption of organic nutrition and electrolytes to the deep layers of the skin (nutrition from the mask and also other ingredients still remaining on the skin from previous treatment).

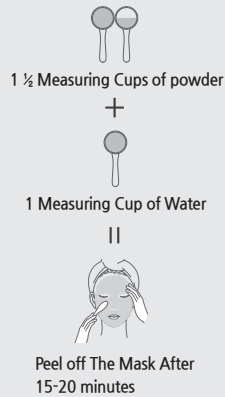

The masks have an instant cooling and soothing effect that is not only refreshing but helps firm, soothe and revitalize the skin for a natural subtle glow.

Jellymasks® are an upgraded version of the peel off rubbermask we have manufactured and sold for over 30 years in Korea. Jellymasks® are made mainly with alginate (great for hydration) and clay (works to draw oil, dirt and other harmful substances from clogged pores). They contain more alginate than regular rubber masks. The texture is like jelly; that's why we coined the term "Jellymask®". Compression provides a soft, seal over the skin to push hydration and ingredients into the skin. They are also great for cooling and soothing the skin.

ACTIVATE WITH WATER

esthemax prefers to avoid chemicals and preservatives like parabens that are found in gel and liquid activators. Our dry powder formula keeps ingredients fresh while retaining all the natural benefits. Distilled water is recommended for activating all the ingredients in the masks prior to application.

Fine Lines, Wrinkles, Elasticity, Loss of Firmness.

RADIANCE BIOTIN 780

Biotin, a form of vitamin B, helps manage dry skin by aiding proper distribution of natural oils. It also helps revitalize skin tone. This mask is great for balancing dry, sensitive, dull and problematic skin by properly distributing oils and water.

Dullness, Uneven Texture, Fine Wrinkles, Redness.

INTENSIVE AFTERCARE 781

Grape Seed Extract and *Organic lavender flower reduce the effects of harmful UV, help dermal healing, reduce redness and swelling, and prevent cell damage caused by free radicals.

Blemishes, Anti-Inflammatory, In-Grown Hairs, Sensitive, Puffiness.

HYALURONIC ACID 782

This mask contains a mega-dose of hyaluronic acid which boosts skin moisture retention to help the skin hold onto hydration longer. Hyaluronic acid deeply moisturizes and improves skin elasticity by holding up to 5,000 times its weight in water. A favorite for dry, dehydrated skin.

Dryness, Dullness, Redness, Wrinkles, Sensitive, Rosacea.

BETA-CAROTENE FLORAL 783

*Organic Calendula soothes irritated skin and other contamination. Retinol (Vitamin A) speeds cell turnover, produces collagen and unclogs pores. Also, the ceramides from plants serve a remarkable role as a protective strong barrier for the skin.

Dullness, Uneven Texture, Fine lines, Wrinkles, Redness, Eczema.

CICA COMPLEXION CARE 784

This mask is an intensive scar treatment good for blemish-prone skin suffering from acne scars, wounds or other damage. It increases blood flow and reduces formation of excess scar tissue to improve skin tone. Organic gotu kola and jasmine are able to heal sensitive scar tissue by regenerating connection tissue and enhancing the synthesis of collagen.

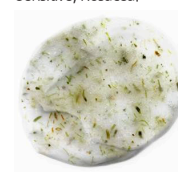

Acne, Scars, Sensitive, Blemishes, Bumps, In-Grown hairs.

ILLUMINATING ORANGE 785

Orange peel contains citric acid and Glutathione fights the look of dullness, dark spots, and discolorations, while instantly increasing brightness, radiance, and luminosity.
