Photon Light Benefits

Red Light (650-730nm)

Penetrates deeply into the skin to promote cell regeneration, stimulate collagen production, and reduce fine lines and wrinkles, making it ideal for anti-aging treatments.

Green Light (430-530nm)

Known for its soothing and purifying effects, it helps calm irritated skin and accelerates healing after minimally invasive procedures.

Blue Light (525-550nm):

Targets acne and inflammation by activating the skin's bactericidal function, eliminating acne-causing bacteria, and reducing breakouts.

Yellow Light (565-570nm)

Improves cellular oxygen exchange, boosts lymphatic drainage, evens out skin tone, and helps treat redness, rough texture, and pigmentation while enhancing immunity.

Purple Light (340-440nm)

A combination of red and blue light, it effectively repairs acne scars, reduces active breakouts, and improves overall skin texture.

Clear Blue Light (340-440nm)

Gradually boosts cellular energy and metabolism, aiding in skin renewal and overall radiance.

Laser White Light

Penetrates deeply into the skin to accelerate cellular metabolism, reduce hyperpigmentation, and improve the appearance of fine lines and sagging skin.

Other Features

High-Torque Motor

Delivers ultra-smooth and precise needling for consistent, professional-grade results.

Adjustable Speed & Depth

Customizable settings for different skin concerns and treatment areas.

Wireless & Rechargeable

Offers flexibility and ease of movement without compromising power.

Minimal Vibration & Noise

Ensures a comfortable experience for both professionals and clients.

Durable & Lightweight Design

Ergonomic grip for maximum control and efficiency.

All in One Kit

Designed for enhanced skin rejuvenation, this comprehensive set includes:

Photo Pen x1

A powerful microneedling device for promoting collagen production and improving skin texture.

Nano Needles x10

Ideal for gentle exfoliation and enhanced product absorption.

36-Pin Needle Cartridge x10

Perfect for targeting fine lines, wrinkles, and overall skin renewal.

12-Pin Needle Cartridge x10

Best suited for deeper penetration to address scars, uneven skin tone, and enlarged pores.
