

EXOSOME MASK

with Cica Exosome

The Pflecta Exosome Mask with Cica Exosome Technology is designed to soothe, repair, and rejuvenate your skin. Infused with exosomes, centella asiatica, and bioactive ingredients, it accelerates healing, reduces inflammation, and restores a radiant glow. Perfect for post-treatment care or a skin reset

EXOSOME MASK

with Cica Exosome

BENEFITS

- Deep Hydration
- Rejuvenation
- Calms & Soothes
- Fortify Skin Barrier
- Improves Elasticity

DIRECTIONS

Leave on for 10-15 Minutes on clean skin. Massage left over essence to face & neck. For Best results, use after facial treatments or once to twice a week at the comfort of home.

KEY INGREDIENTS

- **Cica Exosome:** Support skin regeneration and healing, promoting a rejuvenated and revitalized complexion.
- **Madecassic Acid:** Soothes irritated skin, enhances skin texture, and helps in the repair of damaged skin.
- **Asiatic Acid:** Stimulates collagen production, improving skin elasticity and firmness.
- **Madecassoside:** Provides intense hydration and strengthens the skin's natural barrier, reducing redness and sensitivity.
- **Ectoin:** A powerful moisture-binding agent that helps protect the skin from environmental stress, reducing irritation and promoting skin resmence. It also provides an invisible barrier skin.
